CSM NYB DS F 5 4

# Powerful. Tough. Future-Proof.

Our NY industrial Box PC has been designed from first principles to be powerful, reliable and scalable, making it ideally suited to visualization, data handling, measuring and controlling. The latest insights in design simplification eliminates faults caused by complexity which, with other unique design features, maximizes uptime and reduces costs. The future will be IT driven: Omron's Industrial PC platform will make you part of it.

### **Features**

- · No internal cables to cut faults, maximizes uptime
- Unique simplified thermal design to reduce downtime
- Powerful Intel® Core<sup>TM</sup> technology for optimized performance
- · Industrial CPU's with long availability
- Three Ethernet ports to increase connectivity
- USB3.0 for fast data-transmission
- Optional NY Monitor Link interface for connectivity up to 100 m

# **System Configuration**

\*NY Monitor Link option: Connect monitor up to 100 m via Ethernet cable.

### **Model Number Structure**

The purpose of this model number legend is to provide understanding of the meaning of specifications from the model number. Models are not available for all combinations of code numbers.

- 1: 2 GB, non-ECC
- 2: 4 GB, non-ECC
- 3: 8 GB, non-ECC
- 4: 16 GB, non-ECC
- 5: 32 GB, non-ECC
- 6: 64 GB, non-ECC
- 7: 96 GB, non-ECC
- C: 8 GB, ECC
- D: 16 GB. ECC
- E: 32 GB, ECC
- F: 64 GB, ECC G: 96 GB, ECC

# **Ordering Information**

## **NY-series Industrial PC Platform**

### **Recommended models**

The industrial Box PC has extended configuration possibilities to meet your requirements, below an overview of the most used and recommended models. Selecting one of the models below will bring the benefit of faster delivery times.

In case your preferred model is not listed below, please contact your Omron representative to discuss the possibilities.

# **Spare Parts**

The following spare parts for the Industrial Box PC are available.

| Product name  | Specifications   | Model       |
|---------------|--|-------------|
| Battery       | One battery is supplied with the Industrial Box PC. The battery supplies power to the real-time clock.  The battery is located inside the Industrial Box PC.  Service life: 5 years at 25°C  | CJ1W-BAT01* |
| Fan Unit      | The Fan Unit is available for the Industrial Box PC that has active cooling. Service life: 70,000 hours of continuous operation at 40°C with 15% to 65% relative humidity.  Shelf life: 6 months This is the storage limitation with no power supplied.                                | NY000-AF00  |
| Accessory Kit | Accessory Kit containing all accessories supplied with the Industrial Box PC.  Power connector  I/O connector  Drive bracket for drive installation  4 mounting screws for drive installation  PCIe Card support for PCIe Card installation  PCIe Card clip for PCIe Card installation | NY000-AK00  |
|               | Power connectors (10 pcs) for Industrial Box PC and Industrial Panel PC  | NY000-AK01  |

<sup>\*</sup> Only for models with replaceable battery.

# **Installed Support Software**

| Item                                     | Specifications   |
|--|--|
| Industrial PC Support Utility            | The Industrial PC Support Utility is a software utility to assist in diagnosing and resolving problems of the Industrial Box PC.  It is pre-installed on the Industrial Box PC and the Industrial Panel PC.  |
| Industrial PC Tray Utility               | The Industrial PC Tray Utility is a software utility that provides information about the current state of the Industrial PC, its related devices, and associated software.  It is pre-installed on the Industrial Box PC and the Industrial Panel PC.  |
| Industrial PC System API                 | The Industrial PC System API allows programmers to create programs that can retrieve information or set an indicator status of the Industrial Box PC.  The API makes use of the included IPC System Service to manage the hardware.  It is pre-installed on the Industrial Box PC and the Industrial Panel PC. |
| Industrial Monitor Utility               | For the optional OMRON Industrial Monitor. The Industrial Monitor Utility provides a user interface to control settings and display details of connected Industrial Monitors.  It is pre-installed on the Industrial Box PC and the Industrial Panel PC.   |
| Industrial Monitor Brightness<br>Utility | For the optional OMRON Industrial Monitor. The Industrial Monitor Brightness Utility is a small software utility that allows you to control the brightness of the screen backlight of all connected Industrial Monitors. It is pre-installed on the Industrial Box PC and the Industrial Panel PC.             |
| Industrial Monitor API                   | For the optional OMRON Industrial Monitor. The Industrial Monitor API allows programmers to create applications that can control the hardware features and retrieve information from connected Industrial Monitors. It is pre-installed on the Industrial Box PC and the Industrial Panel PC.                  |
| Industrial PC Rescue<br>Disk Creator     | The Industrial PC Rescue Disk Creator creates a USB Rescue Disk which can be used to back-up and restore the Omron IPC Operating System. It is pre-installed on the Industrial Box PC and the Industrial Panel PC.   |

### Soft-NA

| Product name | Specifications   | Number of licenses | Media      | Model     |
|--------------|--|--------------------|------------|-----------|
|              | The Soft-NA is software that displays information on FA manufacturing sites while providing safety, reliability, | –<br>(Media only)  | DVD        | NA-RTSM   |
| Soft-NA      | and maintainability as an industrial display on which operations can be performed as necessary.                  | 1 license          |            | NA-RTLD01 |
|              | The Soft-NA runs on the following OS:  | 3 licenses         | USB dongle | NA-RTLD03 |
|              | Windows 10 Pro Version 1903 or later 64 bit  | 10 licenses        |            | NA-RTLD10 |

### **System Requirements**

|                           | Item                          | Requirement   |  |  |  |
|---------------------------|-------------------------------|---|--|--|--|
| OS                        |                               | Windows 10 Pro Version 1903 or later 64 bit         |  |  |  |
| Processor                 |                               | Intel Atom® x5-E3940 equivalent or higher processor |  |  |  |
| RAM                       |                               | 4 GB or more  |  |  |  |
| Free space in the hard dr | ve necessary for installation | 1 GB or more  |  |  |  |
| Optical disk drive        |                               | DVD-ROM drive                                       |  |  |  |
| Communication port        | USB                           | USB2.0 Type-A x 2 *1                                |  |  |  |
| Communication port        | LAN                           | Ethernet x 2 *1                                     |  |  |  |

<sup>\*1.</sup> Since one port is for project transfer, it is not required unless the corresponding path is used.

Note: Refer to NA-series catalog (Cat. No. V413) for the system configuration of Soft-NA.

<sup>\*1.</sup> Not all combinations are possible or standard available. Please contact your Omron representative to discuss the possibilities.
\*2. Depending on the model one or two drives are supported.
\*3. Low profile cards, 2.536 inches (64.4 mm) are not supported.
\*4. Battery service life highly depend on circumtance and is in normal operation 20yr longer

To guarantee S8BA UPS operation in combination with our IPC, the specified combination of UPS and power-supply must be used.

Note: Refer to the *Industrial Box PC User's Manual* (W553) for detail.

★The total power consumption is the sum of the power consumption of all items that are installed in your Industrial Box PC.

### **Components and functions**

The intent behind our IPC platform is to empower engineers to become unstoppable in developing machines and factories that are better, faster and safer by giving them the freedom and flexibility to explore the opportunities provided by modern IT. In line with Omron's traditional quality standards, the Industrial Box PC is designed to meet the demands of industrial users for maximum robustness and reliability.

All maintenance sensitive products (HDD/SDD, fan, battery, and PCIe Card) can be easily reached from the outside of the system. No need to open the electronics compartment, less risk on failure.

#### **Optional connection**

RS-232C, DVI-D or DisplayPort++ \*1, NY Monitor Link or GigE LAN. NY Monitor Link allows high speed video and data communication over 100 m via Ethernet cable.

#### **DVI-D** video

Digital, up to 1,920 x 1,200 pixels at 60 Hz (Intel<sup>®</sup> Core<sup>™</sup> i7: DVI-I (Digital or analog))

#### DisplayPort++ \*1

Digital, Up to 4,096 x 2,304 pixels at 60 Hz

#### 3x High speed Ethernet

10BASE-T, 100BASE-TX or 1000BASE-T

#### 2x USB2.0

500 mA maximum current Maximum cable length: 5 m

#### 2x USB3.0

900 mA maximum current Maximum cable length: 3 m

#### **Indication LEDs**

#### **Robust Mechanics**

Full metal housing with black industrial coating

### **Industrial Design**

Winner of the 2016 Red Dot design award \*2 for excellent industrial design

#### 1x PCle slot

Half Length Cards 6.6 inches Standard Height Cards 4.2 inches Easy PCIe mounting drawer

Intel<sup>®</sup> Xeon<sup>®</sup>, Intel<sup>®</sup> Core<sup>™</sup> i7: X4 (4 lanes) Other CPUs: X1 (1 lane)

#### 1x SD Memory Card slot \*1

SDHC type (SD 2.0 specification) Up to 32 GB capacity

#### 1x CFast Card slot

#### Storage

2.5 inch Solid State Drive (SSD) or Hard Disk Drive (HDD), 7 mm height

#### I/O (UPS connection)

Input:

Power sequence signal

Output:

SPST-NO contact configuration

24 VDC at 2 A switching capacity (resistive load)

#### Power switch

#### 24 VDC Power

24 VDC non isolated Lockable power connector

Note: Not all combinations are possible or standard available. Please contact your Omron representative to discuss the possibilities.

\*1.11th generation CPU: Equipped with DisplayPort++ instead of DVI, but no SD Memory Card slot.

\*2. The Red Dot design award has been presented by the Design Zentrum Nordrhein Westfalen since 1955. It is one of the best-respected design competitions in the world, along with the iF award (Germany) and IDEA (the United States).

| Operation environment | Noise resistance (during operation)        | Conforms to IEC61000-4-4, 2kV (power lines)  |
| chivinolimient        | Vibration resistance<br>(during operation) | Conforms to IEC 60068-2-6. For a product with an SSD: 5 to 8.4 Hz with 3.5 mm single amplitude and 8.4 to 150 Hz with 9.8 m/s² for 10 times each in X, Y and Z directions. For a product with a HDD the vibration resistance depends on the mounting orientation *2. |
|                       | Shock resistance (during operation)        | Conforms to IEC 60068-2-27.<br>147 m/s², 3 times in each X, Y and Z directions   |
|                       | Installation method                        | Book mount, Wall mount   |
|                       | Pollution degree                           | 2 or less: Meets IEC 61010-2-201.  |
| Applicable sta        | andards *3                                 | EU Directives: EMC Directive 2014/30/EU (EN 61131-2) and RoHS Directive KC Registration, RCM, cULus  |

<sup>\*1.</sup> The allowed ambient operating temperature and ambient humidity depend on product type, CPU type, mounting orientation, and storage device type. \*2. Vibration resistance depends on the Industrial Box PC's mounting orientation and storage device type:

| Mounting orientation | SSD or CFast Card    | HDD                  |
|----------------------|----------------------|----------------------|
| Book                 | 9.8 m/s <sup>2</sup> | 2.5 m/s <sup>2</sup> |
| Wall                 |                      | 4.9 m/s <sup>2</sup> |

<sup>\*3.</sup> Refer to the OMRON website (www.ia.omron.com) or contact your OMRON representative for the most recent applicable standards for each model.

# **Bracket Specifications**

The metal mounting brackets mount your Industrial Box PC and they are the connection for the functional ground. Use metal screws with a diameter of 4 mm or 5 mm to mount the brackets.

Mounting screw locations for book mount and wall mount orientation:

(Unit: mm)

## **Recommended Related Products**

# Industrial Monitor NY-series

The Industrial Monitor is of key importance at the interface between operator and system. The Industrial Monitor is efficient, effective and highly visible with an attractive design.

# Industrial Panel PC NY-series

The Industrial Panel PC intelligently combines the functionality of the Industrial Box PC and Industrial Monitor. No cables are used between the two components, which ensures optimal signal distribution and reliable operation in industrial environments.

### UPS S8BA-series

The OMRON S8BA UPS protects the Industrial Box PC from power failures, voltage variations and instantaneous voltage drops.

### Terms and Conditions Agreement

#### Read and understand this catalog.

Please read and understand this catalog before purchasing the products. Please consult your OMRON representative if you have any questions or comments.

#### Warranties.

- (a) Exclusive Warranty. Omron's exclusive warranty is that the Products will be free from defects in materials and workmanship for a period of twelve months from the date of sale by Omron (or such other period expressed in writing by Omron). Omron disclaims all other warranties, express or implied.
- (b) Limitations. OMRON MAKES NO WARRANTY OR REPRESENTATION, EXPRESS OR IMPLIED, ABOUT NON-INFRINGEMENT, MERCHANTABILITY OR FITNESS FOR A PARTICULAR PURPOSE OF THE PRODUCTS. BUYER ACKNOWLEDGES THAT IT ALONE HAS DETERMINED THAT THE

PRODUCTS WILL SUITABLY MEET THE REQUIREMENTS OF THEIR INTENDED USE.

Omron further disclaims all warranties and responsibility of any type for claims or expenses based on infringement by the Products or otherwise of any intellectual property right. (c) Buyer Remedy. Omron's sole obligation hereunder shall be, at Omron's election, to (i) replace (in the form originally shipped with Buyer responsible for labor charges for removal or replacement thereof) the non-complying Product, (ii) repair the non-complying Product, or (iii) repay or credit Buyer an amount equal to the purchase price of the non-complying Product; provided that in no event shall Omron be responsible for warranty, repair, indemnity or any other claims or expenses regarding the Products unless Omron's analysis confirms that the Products were properly handled, stored, installed and maintained and not subject to contamination, abuse, misuse or inappropriate modification. Return of any Products by Buyer must be approved in writing by Omron before shipment. Omron Companies shall not be liable for the suitability or unsuitability or the results from the use of Products in combination with any electrical or electronic components, circuits, system assemblies or any other materials or substances or environments. Any advice, recommendations or information given orally or in writing, are not to be construed as an amendment or addition to the above warranty.

See <a href="http://www.omron.com/global/">http://www.omron.com/global/</a> or contact your Omron representative for published information.

#### Limitation on Liability; Etc.

OMRON COMPANIES SHALL NOT BE LIABLE FOR SPECIAL, INDIRECT, INCIDENTAL, OR CONSEQUENTIAL DAMAGES, LOSS OF PROFITS OR PRODUCTION OR COMMERCIAL LOSS IN ANY WAY CONNECTED WITH THE PRODUCTS, WHETHER SUCH CLAIM IS BASED IN CONTRACT, WARRANTY, NEGLIGENCE OR STRICT LIABILITY.

Further, in no event shall liability of Omron Companies exceed the individual price of the Product on which liability is asserted.

#### Suitability of Use.

Omron Companies shall not be responsible for conformity with any standards, codes or regulations which apply to the combination of the Product in the Buyer's application or use of the Product. At Buyer's request, Omron will provide applicable third party certification documents identifying ratings and limitations of use which apply to the Product. This information by itself is not sufficient for a complete determination of the suitability of the Product in combination with the end product, machine, system, or other application or use. Buyer shall be solely responsible for determining appropriateness of the particular Product with respect to Buyer's application, product or system. Buyer shall take application responsibility in all cases.

NEVER USE THE PRODUCT FOR AN APPLICATION INVOLVING SERIOUS RISK TO LIFE OR PROPERTY OR IN LARGE QUANTITIES WITHOUT ENSURING THAT THE SYSTEM AS A WHOLE HAS BEEN DESIGNED TO ADDRESS THE RISKS, AND THAT THE OMRON PRODUCT(S) IS PROPERLY RATED AND INSTALLED FOR THE INTENDED USE WITHIN THE OVERALL EQUIPMENT OR SYSTEM.

#### Programmable Products.

Omron Companies shall not be responsible for the user's programming of a programmable Product, or any consequence thereof.

#### Performance Data.

Data presented in Omron Company websites, catalogs and other materials is provided as a guide for the user in determining suitability and does not constitute a warranty. It may represent the result of Omron's test conditions, and the user must correlate it to actual application requirements. Actual performance is subject to the Omron's Warranty and Limitations of Liability.

#### Change in Specifications.

Product specifications and accessories may be changed at any time based on improvements and other reasons. It is our practice to change part numbers when published ratings or features are changed, or when significant construction changes are made. However, some specifications of the Product may be changed without any notice. When in doubt, special part numbers may be assigned to fix or establish key specifications for your application. Please consult with your Omron's representative at any time to confirm actual specifications of purchased Product.

Errors and Omissions. Information presented by Omron Companies has been checked and is believed to be accurate; however, no responsibility is assumed for clerical, typographical or proofreading errors or omissions.

2024.7

In the interest of product improvement, specifications are subject to change without notice.
